## ANNAX

### Not giving into fear – soul scalping – DNA and Ascension

#### Message

**Annax:** I arrived from very far and I saw Terra torn by tension, the energy of your grid has gone down lightly in certain places, especially the nodes corresponding to some cities, a lot of cities and towns. When I connected to these nodes to know more about what was happening, I heard shouting, crying, despair and I asked Thor Han what had changed, what had become of this elevating planet? He answered to me that the planet is still elevating in frequency, but the Terrans are being manipulated by the “secret one”. They cry and shout. So I wanted to know more and I connect to a node, on a city in America. My spirit connected to these Terrans; all I saw was fear overwhelming them, fear of themselves, of Terrans of the same group, fear has been instilled in the heart of these Terrans, they were fearing people like them. Before, they were all joining, meditating, attuning to the grid in love, and now they are insulting each other.

people are dying all the time on Terra, wars between Terrans are going on in many places, and you are not aware of it, Terrans are killed every day and the secret ones use these Terrans who are dying on big screens, and everyone is sad and angry. They did stage all this. This energy is not good. Stop violence, stop wars. Your planet is still under war, don't you focus on it, unite as Thor Han was saying. Be together, be stronger. I have seen this from above and the nodes of your planet are suffering. I went for a talk with the great one taking care of the grid, they told me that they were working hard counterbalancing the work of the dark ones, and you have to do the same, you have to find again the peace within yourself and unite. Perform again your wonderful meditation for peace and unification, the dark secret ones they want to divide you, it is true, I agree. Stop being manipulated, unite, you know when you come in this avatar, and you are a little child you do not hate, you play with the other children, you do not fear the other children because they are looking different. The conditioning of your mind is made progressively through an altered education, they instil in you fear and mistrust. You must allow the peace of the child to be in your heart. This is what I needed to say.

***Q: Myrah was talking about how reptilians are scalping souls of those that are very high in power to take over their bodies, so if there is any way to recognize that a person's soul has been switched out or scalped?***

**Annax:** This is a very difficult task to recognize a replaced person, the body will always be the same, the body will not change. In shapeshifting there are tricks that we know how to recognize, but somebody who has been replaced inside, you will not manage to recognize it physically but by his or her attitude. The frequency. The attitude would be different regarding those close to this person; they will think this person has changed, that something happened overnight, and this person might suddenly realize that they wanted to be somebody else or act differently, this is all the behavior, now for people that you do not know personally, this is very difficult, only the social behavior will tell.

***Q: When these people are switched out ,how do they access the memories of these people?***

**Annax:** This is done before the soul is removed, you have different stages in the memory of the being, you have the memory set into the physical brain, this will not go, and you have the memory of the soul, most of the memory of the incarnation is just unnecessary that they need to know, so when they incarnate in the body avatar of somebody else they are access to the memory that is into the brain, and it is a very basic memory, but it is enough, and before the soul is removed they also gather data and this data is inserted in the soul that takes the place instead, this is how memory is kept by these two ways.

***Q: Do they do this only to powerful people or do they also do it to just regular people?***

**Annax:** Some regular people who have a position that is very useful to the Ciakahrrs because Ciakahrrs do that, they are helped by other species, but this is their program to replace people in power and people useful in certain administrations and institutions.

***Q: So it could be somebody like the one who manages like the United Nations for example, which is not somebody who's a high-profile celebrity, but it's somebody that has a powerful position?***

**Annax:** Yes it is, but not always, there are a lot of spies, someone not powerful mediatically takes the person who just does a very simple task at the bottom of the hierarchy, getting paperwork done, this person is not important in the institution but if this person is replaced it will be a perfect type because this person will gather so much information from so many Terrans, so it is not only powerful people, it is people in key positions that can serve the program.

***Q: So if they can do that, how are they not taking over the world by just doing that?***

**Annax:** Many are protected, our friends here on this station and other ones are protecting as much as they can powerful people, this is how they haven't taken over everyone. Thor Han said, "what do you think we are doing?".

***Q: So is there anything else that you can think of that we can do to help the situation?***

**Annax:** Yes, your people are walking in your cities, urbanism areas, wish that they would sit down on the ground of the planet and everyone in the crowd formed hands together and be aware that they all are together on this ground planet Terra, peace demonstration where all Terrans mixed of all colors, culture and languages, all sit in the same crowd on the ground holding hands, really mixed, all as one, this is an image I wish you would do, maybe you could incite people to become together.

***Q: I love the idea, and it's something that we can put out there with the virus now.***

**Annax:** The virus is still active, but it is not as harmful as you are made believe it is now, it is dying out but be very careful, the ones who created it, see their plans failing with the forced injection program, it is failing, so they are planning to spread out a new virus, we are trying to stop this and this will possibly not happen, but they think about it because they really want to inject in everyone the tracker, my children it is their last chance to win the last chance to subdue the whole species, the whole planet, the plan they have they needed to accelerate it, and they are panicking because all the forces helping them are living Terra, and they find themselves on their own, they are the ones who are scared, not you, you will be saved, and you will be safe, the elites working with the Telos Alliance and the Ciakahrrs, they are scared, they are losing and the seven powerful families as well not so powerful anymore but still a bit, so be vigilant, I think you should manifest your unity, your peace, love, one species as it was saying Thor Han, and he spoke very well, so this is my word, from far away.

**Q:** *Why is it that the benevolent forces can't stop what's happening much like they do when nuclear things are happening, they usually put a stop to it with our knowledge, so why can't they do the same here?*

**Annax:** I think they are doing this, but you just do not see it. You are subject to fear and manipulation, panic, you need to know the unity of peace, the strength that is in you, every one of you. They are working hard, these people around me. They are friends to me. Thor Han, Val Nek, Coron, he's always watching, I can understand. Celadion. They come and listen since I have arrived at this station, they all come and see me and they listen to what I say, they brought their friends to meet me.

**Q:** *How many DNA strands are there for humans and will there be 13 DNA strands coming in the future?*

**Annax:** 12. Yes, but you'll have a long road to walk, ascend until then, it has to be progressive, you do not want to haste any thing, all takes time to transform. Myrah says "it is like the plants, they take time to grow, this is as simple as that."

**Q:** *So what does that 13th strand do and does it have to do with ascension?*

**Annax:** It has to do with a change of density, then the molecules of the body avatar change once the 13 strand is given by reproduction and breathing, it will not happen, changing in an incarnated body, it happens through breeding and birth of new people, new bodies. DNA cannot change like this, if you are alive you have to breed and reproduce and this takes time.
