

**THOR HAN**  
**May 7 2020**

***Q: Are you able to tell us what you've been working on?***

**Thor Han:** I have been working on the evacuation of the reptilian forces from Terra to the border of the solar system. The evacuation is not over yet. There are still fights going on, and the evacuation is going on as well. We are taking turns with the three fleets at the station. Not to be tired, not to be exhausted because it is hard work. Two fleets are working at the moment. They're on Terra to evacuate the prisoners and those who want to join the light. Now the third fleet which is mine at the moment is working on the maintenance of the etheric grid of your planet. This etheric magnetic grid I always tell you about. This is composed of nodes of energy. It is on many levels. On the higher level which we call the etheric level but as well the magnetic physical level. These are the same nodes just vibrating in different frequencies. I am taking care in my fleet of this. I have 15 ships. It is good coverage for the surroundings of your planet. Recently we had problems with some of your, how would I say, commercial leaders, who are putting up a lot of harmful satellites, and we do not tolerate this. This is becoming too much. There is an amount of junk around your planet. It is absolutely horrible. So at the moment we are trying to do some clean up. Today I was doing some clean up.

***Q: How do you clean up, do you destroy the debris?***

**Thor Han:** We cannot destroy the satellites. We just deactivate them. We cannot deactivate all of them. So it is by turn. We have to stay discrete. It needs to look like a malfunction.

***Q: If some of them work, does that mean that some people will still be affected by them?***

**Thor Han:** Yes. They are not totally in function. They are just preparing something. That we are working on, for never working, never being activated. Yes, a lot of tiring work but more enjoyable. Some people are happy I am not exposing myself to danger in this work. So I wanted to insist, although I'm very busy. I wanted to insist tonight to talk to whoever listens and to whoever wants to pass these messages. The first thing I would mention is that do not fear. There are a lot of new revelations that are going to come up. These new revelations concern more dark things that will come up at the surface of the planet, of the truth. Do not fear. This is just a big cleansing. What I want to say as well is that this will be over before a year of your time, a year of your time your planet will be cleansed from all the dark ones. When I speak about the dark ones, you may think I speak of the reptilians which I do the Ciakahrrs, Nagai, Maytra, and all the rest. These ones will be cast away. The Ciakahrrs are lost, some are turning to the light. This can seem to you a little awkward, but this is part of the messages I wanted to tell you. I've always said not to send a light to them which makes you visible and which is a good way of staying safe, but there is another way, when they by themselves come to the light. Some have understood, and it is a wonderful thing that some dark ones evolve and see the light suddenly. They are very sensorial. They feed upon emotions and energies of fear. They love fear. It is addictive, something that they love. They nourish themselves from the fear and the pain which are delightful energies for them. Some of them have unexpectedly encountered

compassion. They have tasted love. I know you are going to say this is not me speaking, Thor Han, but this is. This is me. I've seen this happening. Some high ranks of Ciakahrrs not a lot, unfortunately. Only four of them. They have changed their mind and deserted their empire. Now these are under our protection. They seek refuge in the underground realms of the Agarthans. There is a place called Telos and the Telosians are helping them. Now we are going, not my fleet but the two other ones. They are going to rescue them and bring them simply back to where they wish to go. They cannot go back to their home, in their empire. They will be killed. So they are seeking asylum to the Federation, and we accept. This is the news I wanted to tell you. That the forces of darkness are being cleansed in two ways. The first way being killed or expelled, evacuated. The second way is a few of them or turning to the light. This is a message I wanted to say, and it teaches, I think that when you have an enemy, someone who you really hate, don't wish this person death. Wish them to evolve, to awaken, to turn to the light. It may work, but never send love, just wish they do it themselves. These four high rank Ciakahrrs have done it themselves. This is good to see. Because I was tired of killing. When you kill you remove a life from the web of the universe. When you are connected to the same universe you feel it in your being. You feel the disbalance for a fraction of seconds. The disbalance of the soul changing realm. When we destroy a ship we send it in another density. This is a rule we've been following not to cause debris in your atmosphere. Then you can feel the disbalance in the universe. This is the thing I wanted to say to you and the second thing is that unfortunately things are going to get worse in your financial institutions. The autumn of your Northern Hemisphere. We'll see a collapse. The month of December will be cold, lost, dark but there is hope, you will see new hope. New hope will come. So even if everything goes scary, it frightens you, know that this is only temporary. This is a normal thing to happen in a period of transition. We are trying our best to make this happen as smoothly as possible. The third message I wanted to pass on is to protect yourself from being affected by the outside in many ways. Firstly the confusion is being spread in your media. The confusion about who is the light and the dark side. Some political leaders are being shown like evil persons, but they are good and other ones are the contrary. There is also a lot of confusion in social media. There are persons paid by the dark side to spread confusion and create entities that are imaginaries and fake. There are genuine good persons working for the light creating groups of persons with social media. Some paid by the dark forces. Copy the same names and create disturbance. So I want to talk to you about a very delicate subject, Ashtar. I will never say enough. Ashtar is a title. Different people have this title. There is one on Jupiter in your solar system. There are many Ashtar. Ashtar means the seat of light. This name has been created by a Collective in the Sirius B star system that you see in your Northern Hemisphere. It is a triple star system. One of the three stars. On one of the planets of this third star. Oh, I wish I could speak directly to you. Elena is not used to the English language. I speak better than her. Sirius B, his name is Ashkira. Ashkira is the place of light because Sirius B is a magnificent blue star. The Ashtar Collective is a group of different races. You have good reptilian ones. Not all reptilians are bad. Not all Pleiadians are good. We already had this discussion. Gray races which are Reptiloids even if they look different. Those you call insectoids, they are as well a group of Grays. Few Pleiadian humanoids from the Sirius system, not the Ummites. The Ummites are not part of the Ashtar Collective, but you have as well those you call Nordic from Alpha Centauri, from Silos. You have a lot of different races in the Ashtar Collective. Ashtar is a military organization recognized by the Federation and its

structure is intricate into The Galactic Federation of Worlds. We refer to them because they are part of it. It is quite complicated, but this is how it is done. We are an association of different Collectives, of different Alliances. This is what the Federation is made of. It is a Federation. There is not one in power above everybody else. That is a Federation. That's what you need to do. So I will speak about Ashtar now. There are many people on your planet paid by the dark side to spread confusion. To give voice to this Ashtar. Who becomes a god. Who becomes a master in ascension. Ashtar is just a military title. Do not give this person so much spiritual power. He is just a high officer. This all came because one day a communication had been made by hijacking a television channel. Someone from the Ashtar Command spoke and spread a message of peace, warning for your people. This officer was called Vrillon and then the Ashtar name became famous, but do not be fooled, do not please worship any spiritual things with this Ashtar. Follow your heart. See what is right for you. If you need an avatar, this illusion to grow yourself and learn something then go with it. I have seen the Ashtar of your solar system. He is a high being of light. Yes, but he is a person. He is not a god. He is very powerful, and he works with his consort. So any Terran woman saying they have a relationship with him. They are crazy. This is my warning about that. I wish I wanted to say something else. This will come back to me.

**Q: *Oh so you are forgetful like us humans?***

**Thor Han:** Yes we are.

**Q: *I just think it's interesting because you are so much alike to us that sometimes it takes us by surprise or at least I do.***

**Thor Han:** Well, me and my kind. There are so many races, and you know among the Pleiadians we have different densities. Yes, I remember now. I was starting my third point by saying, do not be disturbed by the outside. Now, this has another meaning. Everything that happens around you that you hear through your media, is good that you hear them. It is good that you spread information, but information has to be around you. It has to be something that bounces on you. That arrives, touches you and bounces straight away to something else to be spread. Do not drink information because it affects you, especially if this information is loaded with emotions that are sad or shocking. Stay yourselves centred in what you have to do. See yourself like a gemstone. Very hard but very crystalline. Anything that comes toward this gemstone bounces off it because the light contained in it is very powerful. The light contained in it radiates from inside to outside. Information can be very harmful if you drink it. Do not transmit it. Keep it outside in your energy field. It has to come and go. That is what information does. It comes and it goes. This is important because it can really disturb you and completely disbalance you. You have a mission here. All those who listen to me now. They do. They came for a mission. Stay centred in who you are and do not soak in what you are meant to only pass on. This is it.

**Q: *There is so much information out there and quite often all I want to do is share information and tell people the truth, and then I find myself feeding the energy of that information, where I can spend my time in the light, meditating about the new Earth and doing good things over here. Is that what you're saying? Do not spend time on that stuff***

***and spend time on the good stuff?***

**Thor Han:** This is not exactly what I mean. Information has to be passed on but first before passing on information. Be sure that the information is right, that is important. Then passing on information which is necessary. Occurs not by taking it in but by bouncing it up on your body, upon your being. What I want to say is, you are not taking emotions. If you feel you're not strong enough to do this. Just before confronting information, gathering information. Put yourself in a state where you are completely shielded with light, that no bad emotion can come through this shield. This is like shielding a ship. No attack can pass through, but we can send the attack back. No destructive beam can reach the ship because there is this field around it. Everything bounces off it. This is what you have to do. Protect yourself first and do not take it in. It is like the entertainment that you watch. It is the same thing. It doesn't affect you. Passing on information is crucial but seeing the right information is even more important.

***Q: Does every race have its own government and are they governed by a Council, Federation, how do you all work together, how is each race governed, and then how is the whole galactic community governed?***

**Thor Han:** Each race part of the Galactic Federation of Worlds has a representative in the Council but each race may be either only part of the general Federation or either part as well of another Alliance or Collective. The Federation of Worlds is an association of different Alliances and Collectives with the only requirement that we work for the balance of the universe. The Ciakahrr Empire, those you call the Reptilian Empire is not part of The Federation of Worlds because they work at destructive forces. We have very strict laws which are the respect of life. It is based on respect for life. Any civilization based on the destruction of life is not welcome.

***Q: But as far as for example the Pleiadians that live in that area. Who governs them?***

**Thor Han:** Each planet has its own government. Also, there isn't a Pleiadian Collective. There are different races. We are one of them. Most of them are from the Lyran colonies, but there are as well Reptilians which are originated from The Orion Reptilian Collective which is again something else, which is not The Ciakahrr Empire but The Orion Collective, The Orion Reptilian Collective and you do not want to thread with them, they are very bad. They are, oh, I learned this name: thugs.

***Q: You also mentioned capturing the bad guys, how do you actually capture them, and how do you take them away, do you use handcuffs, or do you do it telepathically?***

**Thor Han:** We just stun them, beam them or teleport them. Teleportation is the best. Taking them prisoners.

***Q: Where do they go, where are they kept prisoners?***

**Thor Han:** There is a special ship from the Federation where they're kept in and transported to the boundaries of your solar system. There it depends on what the choices are. Most of the time they choose to go back to where they come from because they have family, some of them. Some of them prefer to fight, and these ones are of course not allowed to fight, and they go to a detainment facility which is out of your solar system as well.

***Q: You talked about the Etheric Grid and someone here who channels a Kryon which is the Keeper of the Magnetic Grid, it's a Collective?***

**Thor Han:** I have heard of this entity which is a High Guardian which is assigned to Terra. We happen to work with him sometimes, but this is not the work we do with this entity. This is an entity of a very high density, but we do not work all the time with this entity. He is doing a different job.

***Q: Because he has talked about The Nulls and Nodes and I know you mentioned The Nodes. He also mentioned something about the memories. Do you know anything about that?***

**Thor Han:** Yes, anything that is created on Terra is recorded in the Nodes. You have to think that this magnetic or etheric grid on the higher level is like your etheric body of your bodies. It stores energetic memories and knowledge. All your emotions are stored, or your memories are stored in your etheric structure, it is the same for your planet, so every Node contains the recording of everything that happened, linked to this node. This is why the Nodes contain knowledge because they contain memories.

***Q: Why would connecting to those help us?***

**Thor Han:** You can learn about what happened in this place where the Node is linked. You can as well energetically activate your energy field. This is what connecting to a Node can do. This is why the Nodes have to stay healthy and in good conditions. I do not know how you would connect to an Etheric Node because they are high above your atmosphere.

***Q: Are you able to connect to those Nodes to get the information?***

**Thor Han:** Oh, yes we can anchor in them and tap some memories and information. We learn a lot. This is not my work, but some are assigned to study them.

***Q: about the Catholic Church***

**Thor Han:** This religion is being purged of all the dark. This religion is based on dark forces, oh wait I am not saying the religion, but the Catholic Institution has been built on profit and power and our not friends, the reptiloid races are infiltrated into this institution very high. The pope is under influence of the reptilians, he is not one, the one before was one. This one he is tied by them, he cannot move. He wants to resign, he cannot do anything. He is not a bad person, he is just a prisoner. He is under their influence.

***Q: It sounds like that's part of what's being cleansed, when you were saying that you are cleaning up and getting rid of everybody?***

**Thor Han:** Yes we are working in association with some governments.

***Q: Can Orgonite help us against the bad EMF and 5G?***

**Thor Han:** Well yes, but it has to be properly made with crystalline substance, not synthetic. If it is synthetic it just blocks the vibrations. It is not effective, it has to be of glass or crystalline or a natural material found on your planet. If it is synthetic it is very poorly working, any natural substance, glass works very well because it is from your sand.

***Q: Is there anything we can do to help with the Etheric Grid like putting some love or 5d energy and crystals and putting them in the ground or anything like that?***

**Thor Han:** Yes you can help our work by elevating your vibration and sending it upwards. When you send your high frequency upwards towards your atmosphere it will at the moment catch the grid and elevate it and work to enforce it. Do you know how to elevate your frequency? What I think is to transform the core of your being. We have techniques as well that are inspired by the Ohorai who are wise Arcturian Masters. We practice it. We use sound, but the vibration of sound would create it inside us, in our head. We hear it inside, we listen to our being of light, and we listen to the sound it produces, the sound is the frequency, the sound is a vibration, a pulse per second, and it has a certain sound. You hear it, and as you increase its speed, the sound becomes higher and increasing its speed. Your etheric field and your energy body will increase its frequency, and then it will be higher, not higher geographically but higher in position.

***Q: Does that have a certain kind of hertz, a number of a frequency?***

**Thor Han:** No it is just vibrating the highest as you can, you will feel it yourself, if it is too high there is a level where you know. If you go above it, you will feel disconnected, and it is not right. We are all different, and we have to find our own sound and lift it. There are many ways, but this is the way we do it.

***Q: So you're saying find a sound that lifts your vibration and use that sound is that what you're saying?***

**Thor Han:** Listen to the sound of your own frequency? This is difficult to explain. Annax will explain that to you very well because it is from his people, this technique. Ask him, it is just something we feel.

***Q: Are the Hyadeans part of the federation?***

They are Lyrans, they are one of the Lyran colonies. They are brothers and sisters.

***Q: You mentioned that there's going to be something that's going to happen with currency. In other words, are we saying that money as we know it won't exist or won't be worth anything and something else will come along?***

**Thor Han:** As things are going, and I repeat as things are going, you will have a new currency which is not the one you have now, and the system will be different because the persons and the organization managing the currency system will be different persons and different institutions. Now you have something extremely corrupted, it is two families who rule your monetary systems and these are collapsing, they're running away, they are fleeing away, abandoning everything. These families, one of them is linked with royal families on your planet very much interlinked. Everything is collapsing. So they are holding on to your actual monetary system, but it will disintegrate. This is, I repeat, how things are going. Of course the present can change, some unexpected events can occur, but this would be really surprising, as things are going this is how we predict it. Let us welcome it and let us manifest it because this is the best thing we all have to do.

***Q: about meditation to manifest what we want on this new earth or in this new way of living.***

**Thor Han:** Say peace and secondly say love, love to bind you all together in one unity creating peace. Love is made of respect, love opens the minds and the hearts. Love enables and gives tools, love creates peace, so wish for both. You need to federate all of you and the only link that can federate you all is love.

***Q: People asking when the event is, are we done with the event.***

**Thor Han:** It is actually occurring, and the event is made of a succession of things, a succession of little events I can say, it is happening now. It's the virus, the monetary change, contact, it's everything together. We're in the middle of the event.

***Q: If you could speak to the seventh plane, density?***

**Thor Han:** Yes we can, not me but some of our people can.

***Q: Those are the light beings of the Pleiadians that are in the light bodies?***

**Thor Han:** Yes we have different grades and different evolution, different densities, our four colonies have ended up on different planets and regarding the different conditions on these four planets the spiritual evolution has been much easier on some planets than others. We have taken different paths and those we call the light beings are amazing persons, they are still what we call Pleiadians but as all of us they are the more evolved stage of the Lyran race. These one, the light ones dwell in the seventh and the eighth densities, mostly in the seventh. They sometimes come, I see them, they are part of the federation of course.

***Q: Is the difference mainly the fact that they have a light body, spiritual body?***

**Thor Han:** They do not have a physical body of flesh as I do for instance, they are not inside a vessel, they are just them. Yes, you can call it like that.

***Q: We talk about ascension and going from 3D to 5D, how do we know for example that we are in 5D compared to 3D?***

**Thor Han:** You are in transition and when you are totally completely in 5D you do not feel any more the bad emotions, you are not affected anymore by pain, suffering. These are emotions linked with the third density, you can be sad but not the same sad, it is not a sadness that affects you. You as well have access to a higher knowledge, you see things, you understand them, and you know I will have difficulty expressing this difference, it is a feeling. You feel you are above the matrix, you feel it. Write this question for Annax. I wish one day we meet on the same plane of existence so that I can speak directly, it is easier. I struggle to speak through her, we do not have the same, I would say physiology, and it is difficult to use her mouth to speak. I speak faster.

***Q: Well you know you gotta have some patience there.***

**Thor Han:** That is why I am not an elder of light, yet. I express impatience, anger, despite and sadness.

***Q: When do you think we're going to stop seeing Chemtrails?***

**Thor Han:** When, all this system will be ended. They will try to do some again after you are liberated from this quarantine, but this will not be for long, it is ending. I do not know when. You know it has been so long since I am working for the Federation. The simple thing is that I didn't go up in the grades because I always want to speak by action, if it was me I would destroy these planes who pollute your planet. I would destroy all the harmful satellites but of course this is not possible, impatience.

***Q: But you had said that you are able to neutralize those Chemtrails.***

**Thor Han:** Yes, but there is a faction that is destroying them.
